

Sashiko

For over 200 years, sewers have created gorgeous patterns by hand stitching, using a technique known as Sashiko. Now, this traditional look can be created on a machine with the new exclusive Sashiko from Baby Lock. It perfectly replicates these distinctive stitches with a unique needle system and adjustable stitches and spacing.

“For anyone who has seen the hand-stitching technique known as Sashiko, you'll be amazed that there's a machine that can replicate this distinctive stitch. This sweet, simple, but elegant stitch can embellish almost anything. From garments to home decor to quilting—once I get started with this machine I can't stop!”

Centuries of Hand-Stitched Tradition Inspiring Today's Creativity

Precise Sashiko Stitches

A specialty needle, working in conjunction with a latch wire system, forms defined stitches and precise spacing to create a true hand-stitched look.

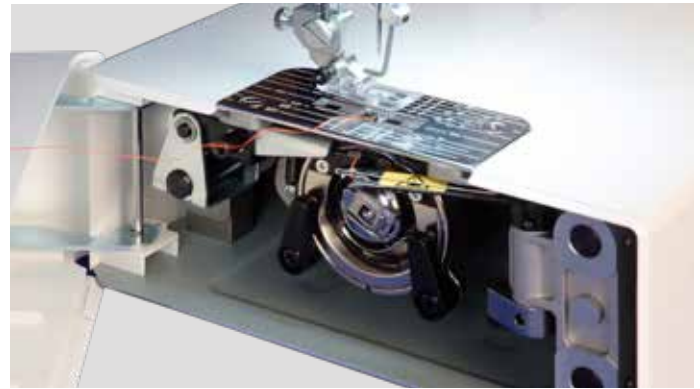

Specialty Stitch Mode

Complete control of stitching and spacing is essential for decorative techniques such as braiding, couching, cross-stitching and adding trim. Now with the specialty stitch mode, a complete cycle of one single stitch and space allows the control you need when single stitch sewing is desired.

Stitch Length Control and Stitch Spacing Control

Create short or long stitches ranging from 2mm to 5mm using the adjustable lever. Create short or long spaces with adjustable spacing from 2mm to 5mm.

Bobbin System

The side loading oscillating bobbin system is conveniently placed for fast and easy loading.

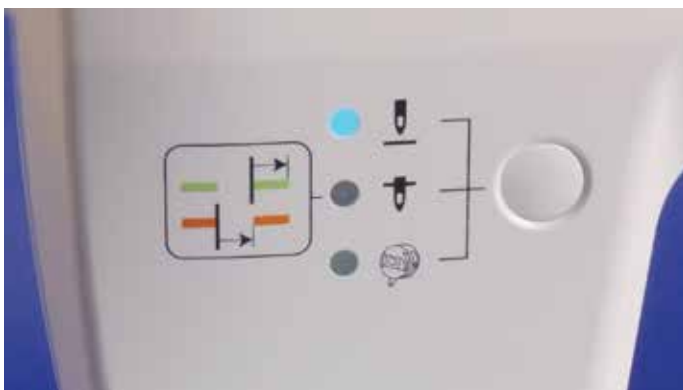

Free-Flow Sewing And U-Shaped Fluorescent Lamp

The adjustable presser foot height allows ease of turning fabric, stitching circles, squares and other shapes for complete control. The entire needle area is surrounded by a lighting system for maximum illumination.

Bobbin Winder

Easily prepare multiple bobbins for projects by winding each one on the built-in bobbin winder.

LED MONITOR

This unique system allows you to easily recognize when the needle is creating a stitch or a space.

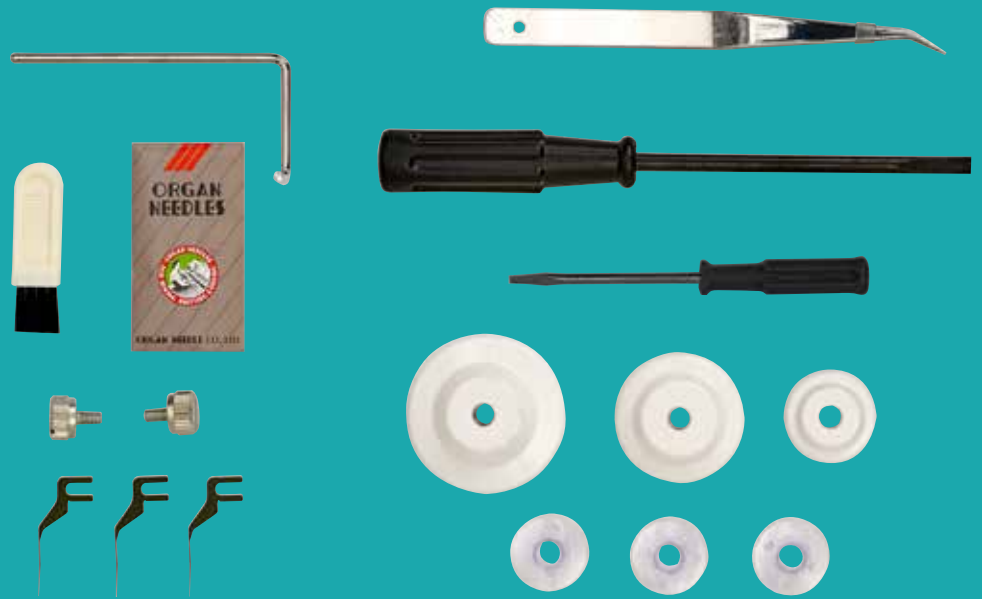

Accessory Storage Space

Conveniently store and organize all of the included accessories in the built-in tray.

Sashiko Included Accessories
