Your Quilting Possibilities Have Been Building to This!

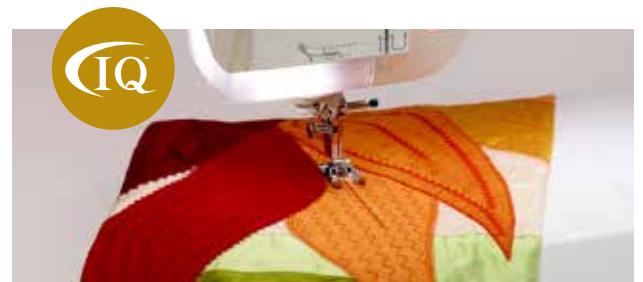

IQ™ Technology

Baby Lock machines come with features that make sewing easy no matter what you want to create. These innovative features powered by Baby Lock IQ™ Technology, work with the “brain” of your machine to achieve the results you desire. Taking your creative journey with IQ Technology makes it easy to bring your vision to life.

Sensor Pen for Sewing

Use the Sensor Pen to tell your machine exactly where you want your needle and stitches positioned. You can use the pen to designate stitch width, placement, and a stopping point on your fabric.

Guide Beam for Sewing

Pave your stitching path with a beam of light. The Guide Beam makes continuous stitching easy to keep straight.

Digital Dual-Feed System

The new Digital Dual-Feed System makes it easy to achieve consistent stitches. Whether feeding a difficult fabric or multiple, thick layers the Digital Dual-Feed System will keep the fabric feeding evenly for complete control.

Enhanced Stadium Lighting

Your fabric is illuminated 10 inches around the needle, so you'll clearly see every detail of your project. Plus, you won't have to worry about changing bulbs with these long-lasting bright lights.

Push-Button Features

Convenient push-button features give you more freedom to focus on your project. Raise and lower the needle or presser foot, cut threads, reinforce stitches and thread your needle with the push of a button.

Quick-Set, Drop-in Bobbin

Use the automatic bobbin winder to prep your bobbins. When you're ready to sew simply drop one in; the Crescendo does the rest.

Color LCD Touch Screen

Clearly see the details of every stitch on the large, color LCD. The screen measures 7" diagonally and shows up to 260,000 colors for a bold vivid display of your chosen stitches, machine settings and more.

NeverMiss™ Automatic Needle Threader

The NeverMiss Automatic Needle Threader does exactly what it promises. It's never been this fast or easy—the Crescendo threads your needle with little more than the push of a button.

Quilting Extension Table

Expand your workspace with the quilting extension table. It securely fits on your Baby Lock Crescendo so you maintain a smooth quilting surface.

Larger Throat Space

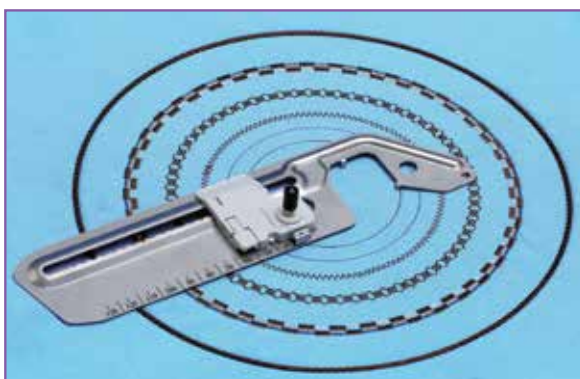

Comfortably quilt with the Crescendo's large throat space. 11.25" to the right of the needle leaves room for thick projects and bulky quilts.

Optional Accessories

Multi-Function Foot Control

Give your hands more free time with the Multi-Function Foot Control. Start and stop your sewing with the main foot control and perform two convenient functions with the heel tap feature and side pedal. Choose two of these four control options: thread cutting, needle up/down, single stitch and reverse stitch.

Circular Sewing Attachment

This creative machine accessory allows sewers to stitch in a circular pattern using any forward-feeding utility or decorative stitch.

2-SPOOL SEWING AND EMBROIDERY THREAD STAND

The Baby Lock Sewing and Embroidery Thread Stand will make your sewing, embroidery, and quilting easier than ever. This stand holds two threads to easily prepare for thread changes.
